WILSON'S INTEREST IN THE BOAD.

THE situation in Egypt is briefly related. Alexandria is almost totally destroyed and still the thieves and incendiaries are at work closely pursued by British marines who mow them down with Gatlin guns. Two thousand christians have been murdered and 1500 Egyptian soldiers killed and 2000 wounded. Arabi Bey is said to be a fugitive with a price upon his head as a traitor, and his troops are dispersing. England's promptness is applauded by the civilized world, and all the vessels of neutral powers in Alexandria harbor yesterday landed volunteers to help Arabi Pasis Declared a Rebel, and is the British marines police the burning city, and, il possible, save what is left of it. The majorlty must control and direct the party. That is the sentiment of the rank and file, The more men think about it the more they are convinced that it is the only right rule of conduct for Democrats, and it is the only one by which the party can be held together.

A WASHINGTON special to the New York Herold, printed among the Washington news in Wednesday's APPEAL, reviews the work before Congress and makes a comparison that is very damaging to the Republicars. It shows that the proposed reforms by that party are mere shame that cannot stand the light of debate. They are like Robeson's navy, strong on paper but Democrats have made great capital during the session, and will enter the canvass next fall armed at all points with incontrovertitrieved, and the Democratic party is stronger before the people than it has been since 1876.
